Mario Prieto, **Ph.D.**

Data Scientist

About me

Passionate data scientist leading projects, solving complex problems, and extracting valuable insights from data, driven by integrity, innovation, and a commitment to making a positive impact

WORK EXPERIENCE

2021-Today

Senior Data Scientist

Madrid, Spain

Ministry of Defense

Development of projects in NLP, anomaly detection and computer vision using LLM, deep learning and traditional machine learning. Key tasks include:

- Studied and analyzed data employing unsupervised methods, including: clustering, dimensional reduction, anomaly detection and association mining.
- Engaged APIs for data retrieval, crafted web scrapers, and executed data wrangling to ensure optimal data quality and accessibility.
- Utilized Large Language Models (LLMs) for diverse NLP tasks including text translation, summarization, QA, sentiment analysis, and text classification.
- Engaged in the process of fine-tuning Large Language Models, such as BERT or ViT, for optimal performance.
- Supported strategic decision-making with data mining and interactive visualizations using Kibana.
- Increased efficiency in a sentence classification model using data augmentation, LSTM neural network and XGBoost algorithm.
- Designed and implemented efficient big data pipelines and process automation within a Spark environment using PySpark, optimizing data workflows for enhanced analytics and insights.
- Implemented data governance practices to maintain data integrity, security, and compliance with GDPR regulations.

2020-2021

Data Steward

Málaga, Spain

Polytechnic University of Madrid

Responsible for managing the quality, consistency, and security of rare disease data. Implemented data standards, ensured compliance with FAIR principles, collaborated with various teams to promote best practices in data management and ensured responsible data handling and privacy protection, aligning projects with GDPR guidelines to safeguard user information and uphold ethical data practices

2020-2021

Python Developer

Málaga, Spain

FAIR Data Systems

In charge of for creating ad-hoc solutions to address unique business challenges. This involves designing, coding, and implementing custom Python applications to automate processes.

2015-2019

Associate Project Researcher

Madrid, Spain

Polytechnic University of Madrid

Worked on the 'Quality and Trust from Provenance in E-Science' project, which aimed to ensure data and result quality by analyzing provenance information. Focused on NLP tasks such as certainty analysis, text mining, clustering, and deep learning. Implemented a Python package that assigned a new sentiment field, 'certainty', with a 86% of accuracy.

EDUCATION

2023

M.Sc. Expert in Data Science and Big Data

Madrid, Spain

Datahack School

2019

Ph.D. NLP/Text Mining field

Madrid, Spain

Polytechnic University of Madrid

Degree: 10/10 Cum Laude

2016

M.Sc. Bioinformatics and Computational Biology

Madrid, Spain

National School of Health ISCIII

2014

B.Sc. Biology

Seville, Spain

University of Seville

- Soft Skills and Strengths -

Curiosity | Flexibility | Self Confidence | Ability to Plan and Organize | Autonomy | Adaptability | Eye for Details | Problem Solving | Team Working | Love Learning New Things | Leadership | Good communication | continuous learning | Critical thinking | Business acumen | Patience

Professional Skills

Project management | Data wrangling | Statistical analysis | Programming languages | Machine learning and data modeling | Data visualization | Experiment design and evaluation | Big data technologies

PUBLICATIONS

Conference Proceedings
2023

Innovative FAIRification solution for a Rare Disease Patient-led Registry: The Duchenne Data Platform, Nawel Lalout, Mario Prieto, Alberto Camara, Eduardo Quemada, Núria Queralt Rosinach, Bruna dos Santos Vieira, Marco Roos, Peter A.C. 't Hoen, Elizabeth Vroom, Mirjam Franken, Rajaram Kaliyaperumal, Mark D. Wilkinson, *11th European Conference on Rare Diseases & Orphan Products (ECRD) 2022; Orphanet Journal of Rare Diseases*, 10.1186/s13326-022-00264-6

Journal Publication
2022

Semantic modelling of common data elements for rare disease registries, and a prototype workflow for their deployment over registry data, Rajaram Kaliyaperumal, Mark D Wilkinson, Pablo Alarcón Moreno, Nirupama Benis, Ronald Cornet, Bruna dos Santos Vieira, Michel Dumontier, César Henrique Bernabé, Annika Jacobsen, Clémence Le Cornec, Mario Prieto Godoy, Núria Queralt-Rosinach, Leo J Schultze Kool, Morris A Swertz, Philip van Damme, K Joeri van der Velde, Nawel Lalout, Shuxin Zhang, Marco Roos, *Journal of biomedical semantics*, 10.1186/s13326-022-00264-6

Conference Proceedings
2021

EJP RD FAIRification Stewards to Harmonize FAIR Implementations Across ERN Rare Disease Registries, Shuxin Zhang, César Henrique Bernabé, Mario Prieto Godoy, K. Joeri van der Velde, Céline Angin, Arnaud Sandrin, Bruna dos Santos Vieira, *International Congress Of Research On Rare And Orphan Diseases*,

Journal Publication
2020

Tomographic and aberrometric assessment of first-time diagnosed paediatric keratoconus based on age ranges: a multicentre study, Carlos Rocha-de-Lossada, Mario Prieto-Godoy, José-María Sánchez-González, Vito Romano, Davide Borroni, Rahul Rachwani-Anil, Carmen Alba-Linero, Jorge Peraza-Nieves, Stephen B. Kaye, Marina Rodríguez-Calvo-de-Mora, *Acta Ophthalmologica Scandinavica*, 10.1111/aos.14715

Journal Publication
2020

Data-driven classification of the certainty of scholarly assertions, Mario Prieto, Helena Deus, Anita de Waard, Erik Schultes, Beatriz García-Jiménez, Mark D. Wilkinson, *PeerJ*, https://peerj.com/articles/8871/

Journal Publication
2019

Evaluating FAIR maturity through a scalable, automated, community-governed framework, Mark D. Wilkinson, Michel Dumontier, Susanna-Assunta Sansone, Luiz Olavo Bonino da Silva Santos, Mario Prieto, Dominique Batista, Peter McQuilton, Tobias Kuhn, Philippe Rocca-Serra, Mercè Crosas & Erik Schultes, *Nature Scientific Data*, https://www.nature.com/articles/s41597-019-0184-5

Conference Proceedings
2018

Unraveling Certainty in Bio-Scholarly Statements, Mario Prieto, Helena Deus, Mark D. Wilkinson, *XIV SYMPOSIUM ON BIOINFORMATICS*, 10.5220/doidoidoi

Conference Proceedings
2018

Bacterial diversity in soils from contaminated and uncontaminated areas of a copper mine, Mariela Navas, Mario Prieto Godoy, Alejandro Rodrígue Iglesias, *VIII Congreso Ibérico de las Ciencias del suelo*, 10.13140/RG.2.2.22735.18080

Conference Proceedings
2016

Approaches to formally tracking, representing, and validating scientific argumentation, Mario Prieto, Mark D. Wilkinson, *Workshop 'New Frontiers in Plant Biology'*, 10.13140/RG.2.2.16178.45761
